Outdoor fun for every child with BERG

Choose BERG!

BERG’s ingredients
Craftsmanship, design and innovation are the ingredients that make BERG stand out on the market. BERG’s Research & Development department continuously focuses on improving and developing pedal karts.

Playing outside safely
BERG products are robust with guaranteed quality. Our products are rigorously tested for safety to let children play outside safely.

Have fun outside!
Rip through the streets on your pedal kart. Every BERG is an adventure for children.

Quality
BERG represents quality with its own designs and user testing.

Durable products
BERG makes durable, timeless products that are very low maintenance. A BERG product lasts for generations!

An eye for design
BERG products are functional, well-designed, and perfectly finished down to the smallest detail. Once a BERG, always a BERG.

Every child deserves a BERG

The BERG story begins in a small village in the middle of the Netherlands. After much sawing, welding and painting in a farm shed, the first pedal kart was produced. This hobby has since grown to become an international company called BERG. Over a period of 30 years, our BERG products have found their way to more than 65 countries across the world.

I had a lot of fun making my first pedal kart many years ago, and I still enjoy developing and selling our beautiful products together with BERG’s employees today. Our BERG products include good service, which is why we work closely with our enthusiastic dealers and importers. They can tell you all about BERG products and let you try out a pedal kart.

Our pedal karts come in a range of colors and sizes, and there is always a BERG to suit you. We’re sure you’ll have lots of fun with your own BERG!

Henk van den BERG
Managing Director

BERG strives to offer as many children as possible the opportunity to be active and creative together in a sustainable way.
